Summary

With a passion for data analytics and a background in computer science, I am a dedicated professional adept at leveraging analytical tools and programming languages to derive actionable insights from complex datasets. My experience includes conducting comprehensive sales analyses, optimizing business processes through innovative dashboard solutions, and generating insightful reports to drive informed decision-making. I thrive in dynamic environments where I can apply my expertise in tools like Power BI, SQL, and Python to unlock valuable insights and drive organizational growth. I am committed to continuous learning and strive to stay updated with the latest trends and technologies in the field of data analytics. My goal is to contribute my skills and knowledge to impactful projects that drive business success and innovation.

Experience

Wow infobiz | Bhiwandi, Thane
Business Intelligence Intern | 07/2024 - Present

As a intern in Wow infobiz , i learned about

- how to make dataset more optimizable.
- Data
- Data cleaning
- Data transforming
- Add column
- Measure
